# Atomizer 105

## Features

The **Atomizer 105** is a professional ULV/mist sprayer and is an electric ULV (Ultra Low Volume) fine droplet sprayer, that utilizes a powerful blower motor, in a very strong machine structure.

- It is intended for the application of an EPA (Environmental Protection Agency) approved disinfecting chemical, for killing the Coronavirus, which includes the COVID-19 Virus.
- It is made of a high-density, chemical resistant polyethylene.
- Brass fittings
- Precision Needle Valve
- Delivers 0-30 liters per hour of the Disinfecting Chemical

This equipment is useful for dispensing **disinfectants** which are labeled for aerosol or mist applications and can be used in most environments, such as:

- Restaurants/Kitchens
- Bars/Lounges
- Hotels/Bed and Breakfasts
- Meat Packing Facilities
- Restroom facilities
- Schools
- Hospitals/Assisted Living Facilities
- Office spaces
- Retail stores
- Malls
- Warehouse facilities
- Movie Sets
- Car dealerships/Repair shops

## Operating Specifications

Dimensions (W x L x H)	13" x 16" x 12"
Net Weight (empty)	13 lbs.
Tank Capacity	1.06 gallons
Flow Rate (Adjustable)	0 – 8 gallons per hour
Droplet Size	5 – 50 Microns
Nozzle Size	0.4.5 mm (ID)
Effective Spray Distance	13' – 26'
Power Cord Length	20 Feet
Motor Power	1330 Watts (Samsung)
Voltage	110 – 120 VAC
Frequency	50/60 HZ
